LIMITED LIFETIME WARRANTY

Baja Designs proudly offers a LIFETIME WARRANTY against manufacturer's defect on all the products that we manufacture.

These are comprehensive warranties; other than the exclusions below – you're covered. If your LED or HID bulb burns out, you're covered. Additionally, cutting off our connector or changing your lenses does not automatically void your warranty.

Exclusions:

Installation errors, abuse, misuse or crash damage. You must be the original owner of the product and can supply proof of purchase.

Baja Designs manufactures its own products as well as resells products manufactured by others. Baja Designs makes no express or implied warranties on products not manufactured by Baja Designs including without limitation any warranties or merchantability and fitness for a purpose. We will however, pass on all warranties made by the manufacturer, who has sole responsibility for performing such warranties.

Baja Designs will pay the freight if your product is less than 90 days old, otherwise defective products must be returned to Baja Designs, Inc., freight prepaid. At our option, we will repair or replace items in question and return them at no charge. If the identical product is no longer available, we will replace with a similar product of equal value. Baja Designs Inc. will not be responsible for any indirect or consequential damages in connection with defective merchandise.

Items purchased through a Baja Designs authorized dealer must be returned through the dealer. Only available on LED auxiliary lights and product must be in sellable condition at MSRP. Product that has been damaged in any way after the original purchase date will be excluded from this guarantee.

Indemnification:

Buyer hereby acknowledges off-roading, racing and driving at night are dangerous activities and that the products and/or supplies purchased from Baja Designs are used in an inherently dangerous activity that may endanger life and limb; and in no event shall the seller, or seller's heirs and assigns, be held liable for consequential damages, nor shall seller's liability on any claim for damages arising out of or connected with the sale, delivery, or use of purchased products and/or supplies exceed the purchase price of the products and/or supplies.

2018 Textron Wildcat XX 40" Roof Bar Mount Kit

Tools Required

12mm wrench

13mm socket wrench

7/16 inch socket wrench (Or other tools needed for existing roof fasteners)

Recommended wiring harness

BD part # 64-0122

Custom harness (12 Gauge min.)

1. To begin, remove either the front or rear roof fasteners depending on if front or rear roof mounting is desired.
2. If the roof does not sit flat with the mounts when the bolts are removed (i.e. there is a gap), place the included spacer in this location aligned with the mounting holes of the roof and mount.
3. The BD logo on the bracket should have the b above the d when placed on the correct side. With the 8mm bolt and washer, thread both through the light bracket, roof, spacer (if used), light bar mount, washer, and nut. Leave the bolt slightly loose.

4. Protect the roof or cage of the vehicle by placing protection (cardboard, plastic, etc.) over where the light will rest during assembly.
5. Carefully align the light with the mounting brackets and install the 1/4" bolts with washers. It may be necessary to have assistance during this step. If the light does not fit in between the mounts, use the other slots in the bottom flange of the brackets.
6. Once the light bar is mounted, the positioning of the brackets and the aiming of the light can now be performed. Once satisfied, tighten all fasteners.

Retorque all fasteners after 100 miles.

See the instructions supplied with the wiring harness to complete wiring needs.

Your install is now complete! Thank you for choosing Baja Designs.
