

BORGESON FLOOR MOUNTS

Floor Mounts General:

- Borgeson billet aluminum steering column floor mounts are available in either a polished or machined finish and in 2 styles Solid or Split. Both swivel for various mounting angles.
- The solid style swivel floor mount must be installed over the column; the split swivel style is a split ring that can be used on columns already installed.
- Inner collar tightens around the column with set screws to securely mount the column.
- Both styles include four bolts and lock nuts for mounting to the floor or firewall.

Floor Mounts Technical:
