WARNING: DO NOT BLOCK AIR BAGS

WHEN INSTALLING SEAT COVERS:

- 1) Seats with integrated seat airbags must be covered only with seat covers designed with openings. Make sure that the openings in the sides of the seat covers are positioned so that the seat covers do not block or interfere with the deployment of the air bag. The attached flap tucks inside the cutout and should be able to open freely in case of deployment.
- 2) Constantly check your seat covers to ensure they are properly positioned to allow for complete air bag deployment.

LIMITATION LIABILITY: The manufacturer shall not be liable for any damages or for the breach of any warranty, express or implied, whether of merchantability or fitness for any purpose or otherwise, or for any other obligation or liability arising out of the installation of the seat covers or the movement of the seat covers after installation.
